

Official Communication - EBRATS 2020 will be postponed to 2021

Cipa Fiera Milano and ABTS – The Brazilian Association for Surface Treatments, the organizers of EBRATS 2020 – Brazilian Conference and Exhibition for Surface Treatments, have decided to postpone the 17th edition of the event until the second half of 2021. The event, the biggest forum for the sector in Latin America, was scheduled to take place between September 16th and 19th, at São Paulo Expo.

Due to the ongoing development of the Covid-19 pandemic and its social and economic impact, the organizers judge this to be a sensible time to work together to limit its spread within the community and look out for the health, safety and well-being of exhibitors, visitors, suppliers, service providers, employees and everyone else involved.

We are following carefully the advice and recommendations of the health authorities of Brazil and overseas. We are convinced that, together, we can beat the challenges brought about by this completely atypical and unpredictable situation, which has forced all of us to make huge changes.

We thank you for your understanding and support and as soon as we have a new date for the event you will be the first to know.
